MAKE COPIES

The Make Copies button runs a macro mcrOpenAddTapes (see below)
The RunCommand just does a SaveRecord
The OpenForm action opens the frmAddTapesMain to the record of the current movie
Where [Vid_ID]=[Forms]![frmMovieEdit]![Vid_ID]

mcrOpenAddTapes : Macro

|	Action	
	RunCommand	Ensure this record has been saved to the table
▶	OpenForm	Open frmAddTapesMain synchronised with frmMoviEdit

Action Arguments

Form Name	frmAddTapesmain
View	Form
Filter Name	
Where Condition	[Vid_ID]=[Forms]![frmMovieEdit]![V
Data Mode	Edit
Window Mode	Normal

Opens a form in Form view

ADD TAPES

Video ID	3
Title	101 Dalmations

Tape ID
1
2
8
9
10
14

Add a Copy

Add copy button runs mcrAddTape
mcrAddTape runs an Append query
New Query don't add any tables
From Query menu select Append and select tblTapes

Field:	Expr1: Forms!frmAddTapesMain!Vid_ID
Table:	
Sort:	
Append To:	Vid_ID
Criteria:	
or:	

Save query as qryAppendTapes
At the View Menu choose SQL

qryAppendTape : Append Query

```
INSERT INTO tblTapes ( Vid_ID )
SELECT Forms!frmAddTapesMain!Vid_ID AS Expr1;
```

Now copy this text
Create a new macro called mcrAddTapes and paste into the SQL as below

	Action	
▶	RunSQL	Run the append query qryAppendTape
	Requery	Requery the form

SQL Statement	INSERT INTO tblTapes (Vid_ID)	
Use Transaction	Yes	

mcrAddTape : Macro

	Action	
	RunSQL	Run the append query qryAppendTape
▶	Requery	Requery the form

Control Name	frmAddTapesSub
